"I would like to highly recommend Frank as a deep, thoughtful, sensitive and impactful coach. Frank has a great ability to capture the essence of the challenge, provide both a broader perspective and a different context to seemingly difficult situations, helping me as a client to see the path to possible solutions. I felt genuine interest and willingness to help from Frank. The whole experience was natural and authentic - almost as a conversation of friends, during which I felt support and care, but more importantly - I was impressed with the result in a very short time-frame."
